Professional Summary

Full-stack web developer with **3.5+ years** of hands-on experience delivering **10+ production web applications** using the **MERN stack** and **Next.js**. Demonstrated success building scalable SaaS platforms, integrating AI/LLM APIs, and managing complete deployment pipelines from development to production. Focused on writing clean, maintainable code with measurable impact on performance and user experience.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose
Languages: JavaScript, Python
Tools & DevOps: Git, GitHub, Vercel, Render, CI/CD Pipelines, API Integration

Projects

ShadowDeploy | Next.js, Node.js, Vercel | 🌐 Live 🌐 GitHub

- Engineered a **deployment automation platform** reducing manual deployment steps by **70%** through automated workflow orchestration
- Achieved **sub-2-second** UI load time via Next.js SSR/SSG optimization and lazy loading strategies
- Designed **3-stage** deployment pipeline (build, validate, deploy) with real-time status tracking and rollback support

PDF Shala | MongoDB, Express.js, React.js, Node.js | 🌐 Live 🌐 GitHub

- Built a **full-stack MERN learning platform** supporting **100+ resource uploads** with category-based filtering and search
- Designed **RESTful API** with **8+ endpoints** handling file upload, retrieval, and user management operations
- Reduced average page load time by **40%** through MongoDB indexing and React component memoization

Free Course Finder | React.js, Tailwind CSS, API Integration | 🌐 Live 🌐 GitHub

- Developed a course discovery platform aggregating **500+ free courses** across **10+ technology categories**
- Implemented real-time search with **under 100ms** response time using debounced filtering and client-side caching

Second Brain (AI Powered) | Next.js, GenAI APIs, Vercel | 🌐 Live 🌐 GitHub

- Built a **GenAI productivity app** integrating LLM APIs to automate note summarization, saving users **60%** of manual effort
- Reduced AI API response latency by **35%** through prompt optimization and server-side streaming with Next.js API routes

Experience

Independent Full-Stack Web Developer

Jan 2021 – Present

Project-Based Freelance & Self-Directed Development

Remote

- Delivered **10+ production-ready web applications** end-to-end – from architecture design to live deployment – over **3.5 years**
- Built **full-stack MERN and Next.js systems** with **15+ RESTful APIs** serving dynamic, data-driven frontends
- Integrated **3+ AI/LLM APIs** (OpenAI-compatible) into applications, enabling intelligent automation and content generation
- Maintained **99%+ uptime** across deployed apps on Vercel and Render using CI/CD workflows and environment-based configs
- Consistently shipped projects within **2–4 week** development cycles, balancing speed with code quality and best practices

Education

Senior Secondary Education (PCM)

Class 12 – Physics, Chemistry, Mathematics

Expected 2025

Pali, Rajasthan, India
